

IMS 200 - BASIC INCIDENT MANAGEMENT SYSTEM

Awareness

Advanced Knowledge

Practicum

This provincial certification course is designed for individuals potentially involved in implementing IMS at simple incidents or during the early phases of a complex incident. Participants will solidify their knowledge of core principles and concepts of incident management functions and organizations. You will apply the foundational knowledge and core concepts gained from IMS 100 through the use of presentations, group work and simulations. By the end of this course you will be familiar with the application of the command system in a simple incident, as well as the creation of incident action plans. You will gain knowledge of incident facilities, resource management and communications as they apply to an incident.

Duration/delivery: Two days in-class session, includes an exam and provincial certification. Please note that this course requires 100% attendance. The course is facilitated by provincial/ local certified instructors.

Certificate: Upon completion of the course, you will receive a provincial certification from Emergency Management Ontario.

Cost: \$200 – all course material will be provided and no special equipment is required.

Date: March 17, 18, 2012 **Location:** Morningside Campus, 755 Morningside Ave., Toronto
